### Unregistered User

A hand-drawn wireframe of a sign-in page. It features a large rectangular box containing two input fields labeled "Username" and "Password", followed by a "Sign in!" button. Below this, a horizontal line with the word "or" in the center connects two text links: "I don't have an account" and a "Sign up!" button.

- This is the sign up page, any unregistered users that clicks the "I'm Interested" button is directed here.
- "Sign up" button from the front page also leads here
- Sign in with correct username & pass will go to page ⑦ or ⑧  
depends on registered user type.
- Sign up will go to page ⑤

Comments & feedback :

5

- Depends on the user's choice, it will go onto the correct screen
- either choice, will lead to page 6

Comments & feedback:

6

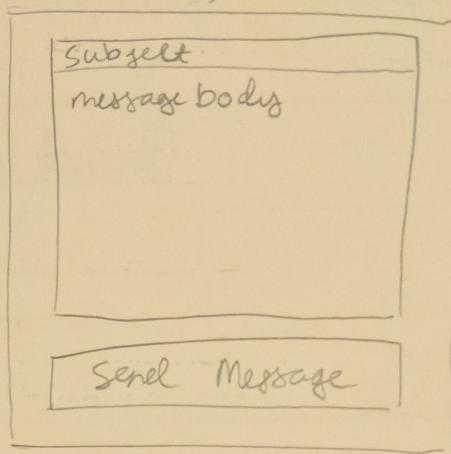

A hand-drawn sketch of a sign-up form. It consists of four input fields stacked vertically, each with a label above it: "Username", "Password", and "email". Below these fields is a single button labeled "Sign me up!". The entire form is enclosed in a rectangular border.

- After Users fill in the info it will go to the message page since now he becomes a registered user, goes to page ⑦

Comments & feedback :

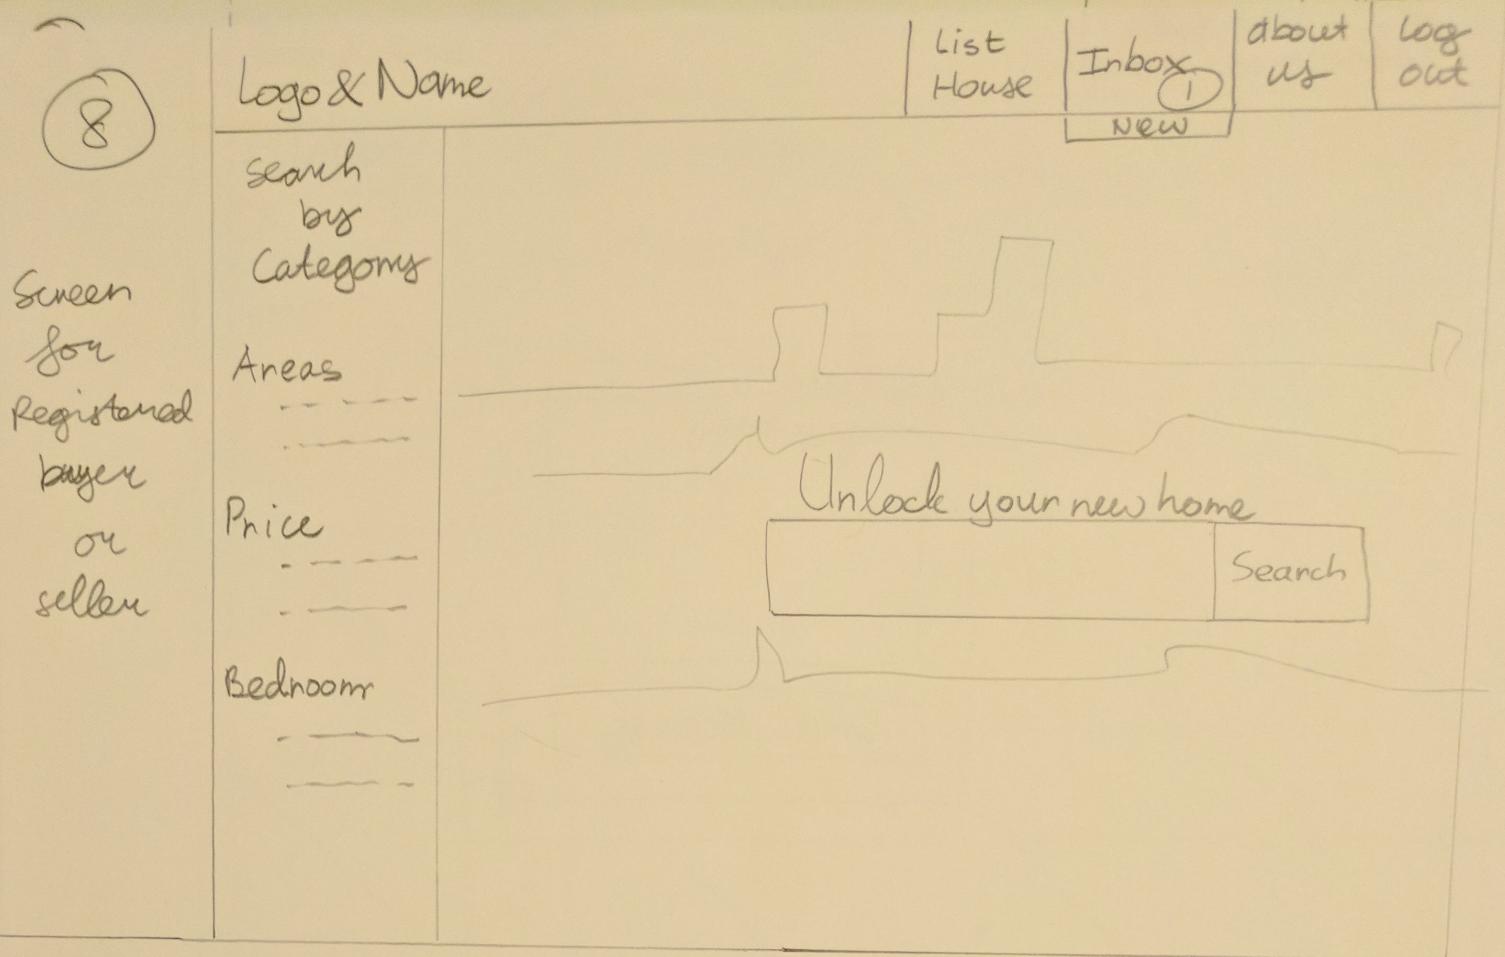

7

Registered buyer

- Pre-filled message, that sends to the house buyer or seller

Comments & Feedback:

- Buyer page does not have "list house" button
- Seller's page has "list house" button
- Both have inbox that retrieve messages ⑨
- "list house" button lead to page ⑩
